Professional Experience

Indonesia Global Solusindo - Technical Consultant/Developer   Jul 2023 – Present

Indonesia Global Solusindo is an IT consultancy company providing custom software solutions to clients

- Led requirement analysis and technical planning for 3+ enterprise-grade projects to accelerate project readiness.
- Developed solutions to automate manual workflows and streamline operations.
- Supervised 2–4 developers per project, ensuring on-time delivery through agile coordination and code reviews.
- Resolved critical production issues through hands-on debugging and root cause analysis.

Freelance - Developer   Sep 2022– Jan 2023

- Built responsive websites using HTML, CSS, and JavaScript based on client specifications.
- Refactored front-end codebases to enhance usability and ensure compatibility across browsers.
- Turned client requirements into intuitive UI/UX designs and implemented them efficiently.
- Handled urgent website issues and restored functionality under time pressure.
